To the Ladies of Dynamix!

Thanks to you, the South Dakota Rail Museum's Gala was a smashing success. You were terrific!

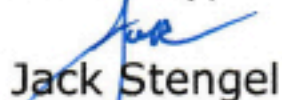

What did we like? Well, this could be a longer list, but I will mention a few reasons -

1. You were prompt and ready to sing and when you did, you were generous with your time.
2. You looked great. Don't bother with uniform outfits - your color-coordination was far more interesting. You appeared to be having fun and if you weren't, you fooled us!
3. Your program had great variety - and even included some railroad-type songs, which had to be difficult to find.
4. Your blend and balance was amazing. There seemed to be no bottom to your bass section. We sat at a table with other choir people and they were all delighted with your ensemble.

Satisfying an audience with such varied musical tastes is very difficult to do, but your standing ovation said it all.

Again, thanks so much for making our evening such a delight.

Sincerely,

Jack Stengel
